## Here's how it works:

One of our expert Event Technicians will complete a site visit allowing us to identify any pre-event requirements for space, permissions, electricity / water supply and vehicle access needs.

Our marquees come in all sizes and shapes and are custom built with your event in mind. Within our "All Inclusive package" based on your number of guests in one of our marquee structures, this will include all of the drapes, the carpeted floor, the dining furniture, linens and cutlery, the catering tent for us to work from, lighting and your luxury dance floor. Following our site visit, we will advise whether generators and luxury loos will be required, of which an additional cost will be quoted. We'll start with a perfect blank canvas and build the day of your dreams with your own choice of theming and decor and dining & drinks packages to suit.

## What about catering?

We supply everything needed for the perfect wedding dining experience. We work closely with our couples to craft the perfect menu, from gourmet canapés to a 3+ course wedding breakfast or depending on the client's preferences, something a little less formal with an exceptionally tasty buffet. We have an established in-house catering team and all the equipment needed to ensure that our Head Chef executes the perfect wedding menu. We also offer 'Fun Foods' such as hotdog & burger carts, pizza & panini bars, candy floss, popcorn, ice cream, crepes & more. Our sister company, Rent-A-Keg also offers mobile bar packages to ensure an affordable bar solution complete with expert staffing and mixologists if required!

Approximately 48 hours ahead of your big day, our marquee rigging team will deliver and build your marquee externally and internally. This can take up to a full day, depending on your chosen size and interior fixtures.

Once this is complete, our catering team will swoop on in to set up their space and catering equipment in a well-timed manner ready to start prepping and chilling.

Your dedicated Party Doctors Event Manager will arrive onsite the day before your event to ensure all tables have been put into position complete with linens, cutlery, crockery and glassware ready for you to add your own finishing touches such as place cards, decorations, flowers, favours and anything else that will make your day unique to you.

On the morning of your special day your Event Manager will be on hand to ensure all staff including the catering and waiting team are fully prepped and ready for you and your guests arrival. They will be your point of contact for any last minute requests. They will brief all staff and be with you until the show is over, but fear not, they'll be back to completely clear up and de-rig at a suitable time!
