

# Sports Hall Transform

## Case Study

### BRIEF:

We were approached by a client to transform a school hall for a PTA annual charity fundraiser.

### WHAT WE DID:

- Installed semi permanent lining anchors around the hall that can be removed and reinstalled for future events.
- Installed a temporary flying rig hung from the ceiling 9 metres up.
- Lined hall using specialist one off ivory marquee linings.
- Provided all the furniture and table dressing.
- Provided a full Sound & Light setup to include gobo projections and wall lighting.
- Provided a professional DJ along with star lit dance floor.
