

Camouflage Party

Case Study

BRIEF:

Provide a small confined marquee at our clients home for a camouflage themed party.

WHAT WE DID:

- Installed a 20ft x 40ft black out marquee complete with camouflage netting across the linings and thick lengths of rope draped throughout.
- Installed a number of props including multiple sandbags, a sandbag entrance way, an army guard hut and missile bombs
- Provided custom made gobos and a number of Par cans in the ceiling to wash the marquee in army based colours
- Provided a photography disco, black and white dance floor, a quarter LED bar and LED poseur tables.
- Draped further camouflage from the house to the marquee to create a snug.
- Laid astro turf on the decking and provided two sets of black outdoor furniture.
